---

SUMMARY

Motivated Information Technology graduating student, eager to apply programming skills and problem-solving abilities in a professional setting. Quick learner with experience in Dart, Flutter, PHP, JavaScript, Firebase, and MySQL, and familiarity with React.js and C# (WinForms). Seeking to contribute as a Computer Programmer while expanding my technical expertise.

EXPERIENCE

Computer Programmer, DILG - Aloran   **Feb 2025 - May 2025**
Student Intern

- Developed user access, authentication, and other functionalities for a report submission & management system
- Implemented secure login and role-based access control to enhance system security.
- Collaborated with the team to integrate authentication mechanisms efficiently.

EDUCATION

Bachelor of Science in Information Technology   **Sep 2020 - Aug 2025**

University of Science and Technology of Southern Philippines - Oroquieta Campus
- Developed a capstone project, a block-based programming game for mobile, with a responsive, web-based admin panel for managing user data and game content.

CERTIFICATIONS

TOPCIT Level 2 - Advanced Beginner   **Apr 2024**

Test of Practical Competency in IT (TOPCIT).
- Demonstrated proficiency in software development, debugging, and IT problem-solving.

PhilNITS Level 1 - Information Technology Passport   **Oct 2024**

Certified fundamental knowledge in IT, including programming, databases, networking, and security, based on Japan's IT standards.
- Assessed in programming, system development, database management, and network security.

ADDITIONAL INFORMATION

- **Technical Skills:** Dart, Flutter, PHP, JavaScript, React.js, MySQL, Firebase, Tailwind, and Bootstrap.
- **Awards/Activities:** Champion, IT Days Hackathon – Collaborated with my team to develop an innovative software solution, showcasing problem-solving and technical skills. USTP - Oroquieta Campus
